Owner seeks new home for Sky Slider 'Restrictions' imposed by council cited as major reason for decision

Lack of development in Haliburton County is cited as the main reason behind Sky Slider ride owner Steve Bowskill's effort to find a new location for the attraction.

In a press release handed out to members of the Ontario Chamber of

Commerce in Haliburton, Bowskill said that after three summers in Haliburton "it is now necessary" for the ride "to move on."

Bowskill claims in the release that although Haliburton has "played host to the ride for the past three

seasons," it has also "hindered its development."

According to the release, "restrictions" such as "denying signage within the town, refusal to allow the sky slider's seven storey hot air balloon to fly, and the reluctance to

allow further development of our hill" are factors in the decision to look for a new location for the ride.

Dysart reeve Murray Fearrey responded to Bowskill's charges in an interview Tuesday.

Speculating that the statement about "denying signage" refers to a Sky Slider banner which was strung across the main street without council's permission and subsequently ordered removed, the reeve said council could not allow one businessman to fly a banner unless all businessmen were given the same privilege.

"We felt it wasn't in the best interests of the main street to have banners all over the place," the reeve said. He noted, however, that council allowed signs to remain at the entrance to the municipal parking lot even though they were installed without council's permission.

On the matter of the hot air balloon, Fearrey pointed out that the recreation committee and council drew up a set of conditions under

which the hot air balloon could be flown from the municipal parking lot, and that those conditions conformed to Ministry of Transport regulations.

"Those conditions were never met, and consequently the balloon never flew, to my knowledge," the reeve said.

Bowskill's claim that council is reluctant to allow further development on the hill apparently refers to a request to allow ski runs using the municipal parking lot as an outrun area.

Council has denied the request, "to protect parking for the arena and curling club."

The reeve was critical of the fact that the press release was handed out to chamber managers and not brought to council.

"I just don't think it's quite fair the way he's approached it," Fearrey said.

"I don't see the purpose of attacking the municipal council when they went out of their way and

Please turn to Page 2

Former staff and students who attended the 30 year reunion at HHSS over the weekend found plenty of memorabilia of their school days to pore over. The reunion was a success, with close to 500 people

registering for the event, which included a dinner and a dance on Saturday night and opportunities to meet friends and former classmates.

Old friends meet at reunion

It may be a cliché to say that the days you spent in school were among the best in your life, but if the turnout at Haliburton Highlands Secondary School's 30 year reunion is any indication, there is a lot of truth behind those words. Some 500 people registered for the reunion, making it an unqualified success.

Most of those who registered attended the school in the 1950's and 60's, organizing committee chairman Dale Robinson said Monday. Many former staff members were also on hand for the reunion, including the school's first principal, Norm Sisco.

The main emphasis of the reunion

was to provide former students with a chance to meet others whom they knew from their school days. Few structured events were planned, a format that proved to be effective.

Friday evening, a 'Meet and Greet' session was held in the school's gym. Saturday afternoon

Deadlock broken, Monmouth hires overseer

Monmouth council has broken its deadlock over the hiring of a road superintendent for the municipality.

At a meeting Thursday night, council voted three to one to hire Barry Dunford for the job on a six month probationary period at a salary of \$17,000.

Dunford, who is a member of council, will resign his seat in order to accept the road superintendent position.

Three candidates had been interviewed for the job in August, with Dunford achieving the highest score on a set of prepared questions. When a motion to hire him was introduced, council was split down the middle, with reeve Keith Tallman and councillor Alan Revill supporting the motion, and deputy reeve Harry Clark and councillor

Jim Deterling opposed.

Council moved no closer to resolving the issue at subsequent special meetings even after the other two candidates officially withdrew from contention.

Last Thursday Bancroft District Municipal Engineer M.M. Majesky was on hand to advise council on the matter.

According to reeve Keith Tallman, Majesky explained that it

is "quite common" for a member of council to be hired as road superintendent and then resign, as required under the Municipal Act.

When the matter was put to a recorded vote, councillor Jim Deterling decided in favour of hiring Dunford, ending the deadlock. Only deputy reeve Harry Clark remained opposed.

Council is expected to discuss the appointment of a new councillor when they meet October 3.

Trust fund to aid disaster victims

Haliburton County could be included in a trust fund that would provide emergency financial help to victims of fires and other disasters.

Initial steps toward organizing the fund were taken at a meeting in

Fenelon Falls last Friday attended by politicians, service club representatives and firefighters from municipalities in Victoria County.

Harold Herlihey, who represen-

Please turn to Page 2

Wilberforce ratepayers buck change in zoning

A group of Wilberforce area ratepayers is objecting to Monmouth Township council's intention to rezone a block of land in the hamlet from recreational to residential.

The Ontario Municipal Board, which held a hearing on the matter September 6, has reserved a decision until later this year, but is expected to support council's application.

But at a meeting last Monday, the ratepayers urged council to rethink its position on the land, which fronts Holmes Drive and is designated as Block B on Plan 543.

The land is adjacent to a subdivision of 21 registered lots, most of which are yet unsold.

The ratepayers, represented by spokesman Bruce Gibbs, say the block is "ideally located in the village for the purpose for which it was established (recreation), particularly in light of present and future development possibilities in the immediate area."

As well, the ratepayers told council that "land of this calibre, lending itself to recreational and parks use, cannot be replaced in the future, or even assembled without massive capital outlay."

According to the ratepayers, the township's planner revealed at the OMB hearing, under questioning from the chairman, that the 21 lots in the area "could represent a 12 year supply when measured against past growth performance."

The ratepayers also claim that it is "deplorable, and a somewhat

questionable business ethic, that council should go into direct competition with the developer it has encouraged to come to the municipality."

They presented council with a petition in support of their claims signed by 295 people.

Reeve Keith Tallman feels council is justified in rezoning the land, and says the money from the sale of the property, possibility to the Ontario government for subsidized housing, would be used for other recreation projects in the area.

"I don't feel we're doing anything wrong," the reeve said in an interview Tuesday. He noted that the land in question is within 600 feet of the existing park complex adjacent to the Lloyd Watson Memorial Centre.

"We need some additional money to complete the Tory Hill recreation centre," the reeve said, noting that swings, slides, a playground area and aluminum siding on the old school building are planned.

"We have a pretty high recreation budget in our municipality now, and revenue from the sale of Block B represents money that would not have come from taxpayers," Tallman said.

If council wanted to upgrade park lands in Wilberforce, which are already sufficient for a population of up to 1000 people, according to the reeve, it would purchase more property adjacent to the Lloyd Watson Centre.

Rain dampens Terry Fox run

A total of 70 runners, walkers and cyclists braved brisk winds and driving rain on Sunday afternoon to take part in the third annual Terry Fox Run for the Marathon of Hope in Haliburton.

Participation in this year's event, one of more than 1200 across Canada, was less than had been hoped, but those who took part managed to raise \$2,624 in pledges for cancer research.

Last year's run raised \$3,986, while in 1981, a little more than two months after Terry Fox died, Haliburton and area runners raised \$5,825 for cancer.

Most of the 70 people who

turned out on Sunday were over 30 or under 15 years of age, with few people between 20 and 30 taking part.

The run was a comparatively easy one for recreational runners, even though the steady rain made conditions less than ideal.

A number of people chose to walk the 10 kilometre distance from Head Lake to the Haliburton Highlands Golf Course and back, and made the best of a bleak day by bundling up in rain coats and rubber boots.

Funds from the local run will go to a special projects fund of the Canadian Cancer Society in Terry Fox's name.

Runners get ready to start the 10 kilometre course from the government dock in Haliburton, along

County Road 18 and back again. Some 70 people took part in the annual event.

Jury recommends changes

The jury at an inquest into the death of two Scarborough boys who were killed while riding an all terrain cycle in Minden Township has recommended that the vehicles be included under the Motorized Snowmobile Act.

The inquest was held September 13 and 14 to consider circumstances surrounding the deaths of Gregory Roy Fallahay, 11 and Howard James Jamieson, 10, who were killed May 15 when they drove an ATC across Highway 35 and were struck by a southbound car.

The jury made three recommendations, the first being that ATC's should be included under the Motorized Snowmobile Act, a move

which would supply better control over the vehicles than is now provided by the Highway Traffic Act. Potential drivers would be eligible for training courses which are now offered for snowmobile drivers. After successful completion of these courses 12 year olds can drive on public trails and at age 14 they are permitted to drive across roadways.

Second recommendation of the jury was that the rules and regulations governing ATC's should be more readily available to users.

Thirdly, the jury recommended that a campaign be undertaken to better educate the public concerning the hazards which may occur with improper use of the vehicles.

Sky slider seeks new home

from page 1
allowed part of his building to be on the street, closed the street for him and paved the parking lot."

The release says the ride has attracted 200,000 patrons in its three summers of operation, and employs between 18 and 22 people.

Built at a cost of \$572,000, it now has an appraised value of \$1.2 million, according to Bowskill.

He said he hoped the ride would be a catalyst for other development

in the area, but that has not happened, "possibly because of adverse economic times and less than enthusiastic political support."

"It is this lack of development which most concerns the Sky Slider," the release states. "Without development, tourist dollars will flow to other areas and Haliburton may be left behind."

Bowskill concluded the release by asking anyone interested in the ride to get in touch with him.

Disaster relief fund proposed

from page 1
ted Haliburton on behalf of the Rotary Club, said a similar fund has existed in Peterborough for the past three and a half years. It was established after a series of major fires, and is sustained by donations from political bodies, service clubs and individuals.

The fund does not take the place of insurance, Herlihey emphasized. Instead, it offers short term emergency financial aid for housing, food and clothing to disaster victims.

The fund would be administered by a central committee, with representatives from local communities having authority to provide funds to victims.

Support for the concept appeared strong among the approximately 100 people who attended the meeting last Friday, and an ad hoc committee was set up to pursue the matter further, Herlihey said.

Anyone interested in serving on the organizing committee for the fund, or who wants further infor-

mation, should get in touch with Marina McLennan, Box 377, Fenelon Falls, 887-3126.

It is expected that the concept will be brought to the attention of county council when they meet Wednesday after the two month summer recess.

Objections

from page 1
Tallman said council could not provide a "satellite park" in Block B unless it was prepared to establish parks in other housing clusters throughout the municipality.

"I can't see council changing our position," the reeve said.

He also noted that not every ratepayer supports the position taken by the group which attended the meeting last Monday.

"There is opposition to that petition too," he said. "It's not all one sided."

"It's not a one way street by any means."

The best place to be while you waited for the Terry Fox run to begin was under the shelter at Head Lake dock. Here run helpers gathered pledge sheets and

kept track of the number of entrants. It rained throughout the afternoon, which may have contributed to the relatively small turnout

Calendar for school year set

A finalized calendar for the 1983-84 school year has been released by the Haliburton County Board of Education for the information of parents with youngsters attending county schools.

The school years are not identical for elementary and secondary students because of examination schedules, but the board says efforts have been made to keep the calendar as common as possible between the two panels.

The year consists of three terms, the Fall term from September 6 to December 16, the Winter term from January 3 to March 9, and the Spring term from March 20 to June 20 for high school students and June 22 for elementary school students.

Teachers attend school on examination days, and will be present even if they do not have

presiding duties.

Students attend on instructional days, but do not attend on holidays, professional development days, curriculum day, reporting day and programming day.

The calendar for the 1983-84 school year is as follows:

September 6 - School begins and continues all day.

September 19 - Professional Development day in both elementary and secondary panels.

October 10 Thanksgiving Day (holiday)

November 7 - Professional Development day in both panels.

December 2 - Professional Development day for elementary teachers but an instructional day in the high school.

December 19 to January 2 inclusive - Christmas break.

January 13 to January 20 - Instructional days in the elementary schools, but examinations are scheduled in the secondary school.

February 17 - Professional Development day in the elementary schools, but a regular instructional day in the secondary school.

March 12 to 16 inclusive - March break (holiday).

April 20 - Good Friday (holiday).

April 23 - Easter Monday (holiday).

May 21 - Victoria Day (holiday).

June 13 - Instructional day in the elementary school, examinations begin in the secondary school.

June 20 - The last student day in the high school, ending at noon.

June 22 - The last student day in the elementary schools, ending at noon.

Sherborne council holds meeting

A regular meeting of Sherborne et al council was held Monday, August 15.

Road Superintendent, Delbert Page gave a report to council as to road conditions and recent projects completed.

Road Voucher No. 7 for the month of July 1983 approved for payment in the amount of \$13,287.61.

A number of letters from various ratepayers and cottage associations were next on the agenda.

Mr. Porter's letter noting his concerns with Wren Lake Road, West were noted by council. The clerk was directed to reply to same outlining that this road was constructed by a private developer, and that perhaps those using said road should form a "Road Association" to do yearly maintenance. It is the policy of the municipality only when roads are built to MTC standards and eligible for subsidy purposes, can council consider assuming them.

A number of ratepayers signed a letter requesting council to consider road maintenance being given from Skin Lake (Lower Fletcher) to Livingstone Lodge. Their comments were noted. Clerk was directed to reply to said letter indicating that it is hoped that over the next few years a number of phases in re-construction and general maintenance along this section of Township road can be planned; but that re-routing the "S" turn immediately preceding the first Fletcher Lake Landing would be a costly item; but certainly warranted consideration.

A letter from Red Pine Cottage Association was noted. The clerk was directed to forward a copy of same to Township of Dysart and request their comments as to parking concerns.

Raven Lake Property Owners Association letter of thanks in replacing the old dock on the landing was

Kiss an old flame goodbye.

We'd like you to take a minute now to think about something you'd really rather not think about. Home heating. Because right now is the perfect time to do something about next winter's oil bills.

If your oil furnace is in good condition, but you'd like it to run more economically, electricity is the answer. A dual-energy system combining oil and electricity will heat your home efficiently and economically.

For example, adding an electric plenum heater to your oil furnace will reduce the amount of oil you use by up to 75 per cent. While adding a heat pump will not only cut heating bills by 20 to 30 per cent, but also provide air conditioning in the summer, for efficient year-round comfort.

If your furnace does need replacing, an electric furnace or one of the other electric systems can heat your home cleanly, efficiently and economically.

Like to know more? Take a minute now and write to Ontario Hydro, Room U7 E1, 700 University Avenue, Toronto M5G 1X6 and ask for our free booklet "Electric Heating Options for Your Home."

Because the minute you take now could add up to big savings come December.

Go Electric

Reunion was a time to meet old friends, remember the good old days at school

from page 1

was given over to an open house. The main entrance hall was festooned with a huge 'Welcome' banner, and there were dozens of photographs from year books on display. There were also class lists dating back as many as 50 years, and tables of memorabilia for visitors to pore over.

Laughter and handshakes were the order of the day as people who had not seen each other for years reminisced about their school experiences and caught up on subsequent events.

Later in the afternoon, visitors had a chance to enjoy a buffet supper at the Legion. Rounding out the evening was a dance at the

Haliburton Curling Club.

Registration and other revenues from the weekend are expected to cover expenses, Robinson said.

Overall, the committee was satisfied with the success of the reunion and gained experience that will be valuable when the time comes for another reunion at the school, Robinson said.

In fairness

It is difficult to imagine what Sky Slider owner Steve Bowskill hopes to accomplish by his recent tactic of criticizing Dysart et al council in a press release handed out to Chamber of Commerce managers from across Ontario. If he hopes the Chamber managers will rally to his cause, he may have sought their support in the wrong way. And if he wants local people to empathize with his point of view on the importance of the Sky Slider and the need for future development of the hill, he has taken a questionable approach.

In the single page release, Bowskill claims that Haliburton has hindered the Sky Slider's development. The facts don't support the contention.

When plans for the ride were first unveiled, council went out of its way to be accommodating. All councillors wanted was to remain in control of matters that fell into the public domain, matters such as zoning, location of buildings, parking, signage, and so on. When it became clear that the chalet at the base of the hill would encroach on a municipal roadway, council agreed to close the road and allow the structure to be located where it now stands.

Subsequently, council had the parking lot in front of the arena and curling club paved, a move which, while it might have been done anyway, benefitted the Sky Slider nonetheless.

The press release accuses council of denying signage within the town of Haliburton. Council did order a Sky Slider banner removed from the main street, but it did so in fairness to all local business people. It did not want the village festooned with banners for all manner of commercial enterprises, and was not prepared to give the Sky Slider rights that would not be enjoyed by other businesses.

This idea of equal treatment for all business people may be at the heart of the matter. From the outset, Bowskill appears to have felt that because of the size of his project and its anticipated benefits to the community, he deserved special consideration. That might have meant allowing the Sky Slider banner while denying banners to other business people. It might have meant allowing a hot air balloon to fly from the municipal ball diamond while other commercial ventures are denied access to the field because it was deemed to the people for recreational uses. And it might have meant moving the ball diamond and closing much of the parking lot so skiers could have an outrun.

To their credit, council has tried to balance Sky Slider plans against the public interest, an interest that is predicated on the principle that all people deserve equal treatment on municipal matters.

The Sky Slider has been good for the community. It has provided jobs in the summer months, and it has drawn people into Haliburton. Most people would like to see it stay where it is. But council can hardly be blamed if revenues from the ride don't meet costs. It can hardly be held responsible for the fact that Haliburton was not a day destination for tourists before the ride was built and has not become one since.

The community is not likely to demand that council step in to keep the ride in Haliburton. If the ride must be moved for reasons that have little to do with a lack of political support, council, and local ratepayers, will wish Steve Bowskill well wherever he takes it.

Letters

To The Editor:

As chairman of the Haliburton Terry Fox Run, I would like to thank all those who came out in the terrible weather to help support Terry's Dream last Sunday.

This year the community raised a total of \$2,624.00 in donations and pledges for cancer research.

Those who worked to organize the event, helping with publicity, registration and setting out the course, deserve special congratulations for a job well done.

Yours sincerely,
L. Blair Pierce,
Chairman,
Haliburton Terry Fox Run

Editor's note: The following is a copy of a letter sent to Victoria/Haliburton MP Bill Scott, whose reply follows.

Dear Mr. Scott:

We, the undersigned would like you to know that on Wednesday evening, August 24, 1983 we attended a meeting at the community centre in Minden, Ontario which was sponsored by the Minden Peace Committee.

The speaker was the Rev. Clarke MacDonald, moderator of the United Church of Canada, and his speech, or remarks were about the urgent need for nuclear disarmament. He did not take sides, but outlined for those present facts and figures regarding what exists, and what is being manufactured.

The Reverend's talk followed the showing of the film "If You Love This Planet." Some terrible facts came to light, and if you have not seen the film it is really quite educational.

We are sure you are aware, as we are, of the nuclear armament question and the need for all of us, regardless of political opinion, to speak up to stop this race to nuclear war, which nobody will survive.

It is no longer a matter of which of the two powers is ahead in stock piles of nuclear bombs, subs, missiles and so on, but rather an urgent matter to save the world from total destruction.

We urge you therefore as MP for Victoria-Haliburton to speak up in Parliament against any further production of nuclear armaments and for immediate negotiations between the U.S.A. and the Soviet Union to come to an agreement for peace and peaceful co-existence.

We also are of the opinion that Canada must reverse its decision to allow the U.S.A. to test cruise missiles in Alberta.

From reports we have heard testing cruise

missiles was not debated in the Canadian Parliament, which adjourned June 29, 1983.

It is our understanding that two weeks before Canadian Parliament adjourned - on June 13, 1983 the U.S.A. had officially requested that Canada test the AMG-86B cruise missile. It was on July 15, 1983 that the Liberal Cabinet issued a simple statement, "Canada agrees to test cruise missile." Actually, as above stated Parliament was not in session, only 38 ministers made the decision.

Our grandchildren deserve better than this kind of Canadian democracy and we are sure you will agree.

One other point: did you know that in the South Pacific where a lot of nuclear tests go on 'Jelly Babies' are actually being born - horrible to even think of. So please, do speak up for our future generations.

[Mrs.] M. Ferguson
J. Pauk
R.R. #2, Minden

Dear Mrs. Ferguson:

Thank you for your letter of August 29 regarding nuclear proliferation.

I agree with you that the speed at which both of the super powers are building up arms is alarming. One small bit of encouragement of late is the resumption of the arms limitations negotiations in Geneva. Even throughout the Korean 747 incident, neither side ever suggested that these talks be suspended.

You are quite correct in saying that no full debate on the testing of the cruise missile guidance system was done in Parliament. The government has considered approving the testing as fulfillment of their obligation to our NATO partners.

I am sure that this issue will be brought to our caucus meetings this weekend and that our party's position will be reviewed.

Naturally, I believe the threat of nuclear war must be eliminated, but I do not believe that any solution arrived at in haste or without full consideration of all the facts involved will do this in the end.

Once again, thank you for your comments. Please feel free to write to me any time if you would care to make any comments or suggestions, or if there is any way that I might be of assistance.

Yours very sincerely,
William C. Scott, M.P.,
Victoria-Haliburton

Feir Play

Creighton Feir

A few years ago I can remember being in the Haliburton arena one Saturday morning watching a minor hockey league game being played between a team from Haliburton and one from Beaverton. There was a young player on the Beaverton team who caught my eye as he dashed up and down the ice as if the puck was glued to his stick. I happened to ask someone standing close to me who the young kid was and they replied that his name was Basil McRae. As the season went on I kept hearing reports of just how good he was and I thought at the time that in years to come he would be material for the National Hockey League. McRae made the NHL last year when he played with the Quebec Nordiques. According to a story in the Toronto Star his motivation for wanting a change of scene was a belief that he wouldn't receive a full scale opportunity to be an NHL player if he were a Nordique. McRae, who is 22, was traded to the Leafs in late August. The Leafs have an opening at left wing and from what we can gather he will be given every opportunity to fill it.

The Rotary Club of Haliburton, in keeping with the outstanding work that they do in the community, have voted to give a donation of \$1,150 to the Ralls' End Gallery to help them upgrade the lighting and install a new fire alarm system. Also a donation of \$106 will be given to a needy child who needs glasses. The Rotary Club also reports that a member of the Recreation Committee will approach council to enquire about the long term plan for Rotary Beach in regard to replacing sand which keeps washing out. A report back from this committee will be made to the club.

This coming Saturday, September 24 at 9:30 a.m. the official opening of the Minden Wildwater Preserve Training Centre will take place and from noon to 5:00 p.m. practice trials for the Provincial Kayak Races will be held. Then on Sunday, September 25 it's the Provincial Races from 9:00 a.m. to 4:00 p.m. The Minden Wild Water Preserve is located on the Bethel Road, just north of the village of Minden, off Highway #35, on the Gull River.

And what do you know, the hockey season is upon us once again. The Haliburton Huskies will be playing their first exhibition game of the new season at the Haliburton arena this coming Saturday night, September 24 when they meet the visiting Huntsville team at 8:00 p.m.

The rain that came down on Sunday didn't stop people from participating in the Annual Terry Fox Run. A good number left the town dock in Haliburton shortly after 1:00 p.m., some running, quite a number walking and others on bicycles.

Len McQuat, a sales representative with Bell Canada, was the guest speaker at a recent meeting of the Rotary Club of Haliburton. He enlightened the Club on changes that have taken place, and upcoming changes in the telecommunications business. With the rapid expansion of telephone technology our daily habits in shopping, banking, etc. could change somewhat in the near future.

We have spoken on several occasions on the subject of community involvement. The community is where most of our living is done and we have to agree that it is important to be involved. Many people get a great deal of satisfaction from being involved in local projects. One gets a great feeling of pride when he or she walks by something they have helped to establish. The community is always in need of workers, whether they are involved in group projects or as individuals going out to help better the lifestyle in the area. The community is only as good as you make it.

It shouldn't be too long before we will notice several colour tour buses in Haliburton County during the next few weeks as visitors will be coming in from other centres to view the scenery and to see the countryside in all its beauty. We need some good cold nights with frost to bring out the colours.

Now the latest news is that some of the stores in Toronto and Metro want to remain open on Sundays. Surely to goodness they can make enough money in six days without opening on Sunday. It seems to me that it all adds up to nothing else but greed. I think that everyone will survive if the Eaton Centre and Simpsons aren't open on Sundays. Let's hope that we will remain closed here in Haliburton County on Sundays so that at least the employees and employers can spend one day with their families.

We understand that a quilting club is being organized this fall at the 4 C's Centre in Haliburton. They say that if you are a novice or an experienced quilter, or just eager to learn that you are most welcome. Also there has been interest expressed in organizing Bible Study and Fellowship Groups. The success of the outreach of this centre depends on each one of us - working together to reach the lonely and those who have a variety of needs.

Those attending the Maple Lake United Church this coming Sunday, September 25 will be in for a real treat when the Horseless Carriage Chorus from Oshawa will be singing at the church at 2:00 p.m. This will be a musical program well worth listening to.

Pic of the Past

Our thanks this week to Ronald J. Curry of Haliburton for giving us permission to use this photo showing the Haliburton Citizens' Band in front of the old town hall in Haliburton in the year 1917. At that time the band played at garden parties, Calithumpian Parades and

many other events. H.B. Feir, the band master, came to Haliburton in 1912 and shortly after invited and trained a group of boys to play in a reorganized Citizens' Band. This band continued for many years under Mr. Feir's leadership. Front Row from the left: Bert Iles, Ross Hudgins, Harry Kellett, Ron Curry. Second row from the left: Berkeley Feir, Moss Robertson, Cliff Austin, George West, H.B. Feir, Cyril Feir. Third row from the left: Frank McIntyre, Wal Austin, Boyd Austin, Jas. Pearsell, George Cluff, Robt. Johnson.

From the Chamber

by Frank McCarron

It's not too late

Last weekend certainly had to be one of the busiest weekends in the county so far in 1983. If anything we suffered from an embarrassment of riches. People had a choice between the Harvest Festival in Minden, the 30th Anniversary Reunion of the Haliburton Highlands Secondary School, canoe slalom racing on the Gull River at the Minden Wild Water Preserve plus the usual array of art shows and exhibitions. In many ways it is unfortunate that at this time of the year we have no special events to offer visitors to our county but on weekends we have so many exciting events going on that people must make a choice. When visitors have to make a choice it means that attendance suffers at all of the special events. A little careful coordination by event planners would mean that there would be enough people to attend all of the events.

As everyone in this county strives to make the Haliburton Highlands a true four seasons vacation land we should all give thought to holding special events at times other than July, August, and weekends in the Fall. Our county has so many special events going on throughout the year that instead of merely overlapping them all in the summer and fall weekends we must spread them through the week and the year. Then we truly will have something to offer the tourists year-round.

Speaking of the Harvest Festival: if you missed the Klondike Jubilee in Gooderham or the Caribbean Islands Night in Minden you missed some good Haliburton Highlands good times. But it's not too late. We still have Stanhope's "Bienvenue a Stanhope" on the 24th and "Over 'Ome Day" in Haliburton on October 1. Passports that will get you in at the door are only five dollars and are available from many local sources including the Chamber office at Minden, and Black's Hardware, Stedmans and Varty's Jewellers in Haliburton. Further information is available from the Chamber office (286-1760).

Continuing until the 27th at the Agnes Jamieson Gallery in Minden is a fascinating show by the Lindsay 5. This multimedia show includes oils, watercolours, acrylics, photographs, pottery and fabric art. This show is well worth seeing as one seldom gets to see as many varied works of art from only five artists. The gallery is open from 11, Tuesdays to Saturdays.

It's white water racing time at the Minden Wild Water Preserve. Last weekend was the Open Canoe Slaloms and this weekend is the Provincial Slalom Championships. Saturday the official

practice is from 1-5 p.m. with the actual championships being on Sunday from 9:00 a.m. to 4:30 p.m. Parking is on the west side of the Horseshoe Lake Road. In addition Saturday the 24th will see (at 10:00 a.m.) the official opening of the Gull River Training Centre. The public is cordially invited to this event. The building will have weather protection areas and warm washrooms when a custodian is on site.

The Rails' End Gallery in Haliburton's current show, until October 1st is a "Fingering Fibres" exhibit. The show consists of hand-made knitted and crocheted items by artisans from Ontario and Quebec. The gallery is open from 11 to 5, Tuesday to Saturday.

You've only got two weeks of the Harvest Festival left. Remember, your five dollar passport gets you in to as many of the Harvest Festivals this year as you like. You've only got two left. September 24 in Stanhope and October 1 in Haliburton Village.

Letters

To The Editor:

We would like your readers to know that a Flood Plain Review Committee has been appointed by the Ministry of Natural Resources to hold public meetings throughout the Province for public input as to whether there should be a Flood Plain Management Programme in Ontario instituted by the Province, or should individuals have the right to build wherever they wish at their own risk.

Property owners in your area faced with problems when they attempted to build on their land; or who have found their property has dropped in value; or who found it difficult to raise mortgage money; or who have run into other problems because of land use regulations imposed upon their property by the local Conservation Authority or the Ministry of Natural Resources are strongly urged to check with their local MPP to find out when the Flood Plain Review Committee will meet in their area in the months of September and October of this year.

For further information your readers may contact members of the executive of the Niagara Peninsula Flood Plain Fighters Inc.

Mary Fox, Secretary

Queen's Park Report

John Eakins, M.P.P.

This is the second part of the discussion regarding Ontario Hydro and nuclear power in Ontario. As I suggested last week, I hope you will take the opportunity to read the complete column, for while it is double the length of my normal Queen's Park report, I feel the questions which people have been asking deserve an answer. I am, therefore, pleased to make this information available to you.

Hydro and nuclear power - Part II

David Peterson emphasizes that the Pickering accidents add to the litany of Hydro's problems. Accidents at the 12-year-old plant show that failures occur in relatively young facilities. Some 1,374 "unusual events" occurred at Pickering between 1970 and 1979. According to a Lakehead University report, 550 (40%) resulted from human error, indicating that "carelessness or unsafe work habits are a major cause." While the human factor will always be a consideration, additional technical questions arise.

Can a satisfactory solution be found to the safe disposal of radioactive wastes? Could we experience an accident, similar to the Three Mile Island disaster, shutting down a plant for years, possible for ever?

Diversity is one answer. Hydro-electric, fossil-thermal and other sources (wind, solar and small scale hydro) must form a secure portion of a non-nuclear dominated electrical power system.

High nuclear plant construction and operating costs are pushing consumer rates sky high, jeopardizing Ontario's financial soundness. Plants cost billions to construct, and loans for construction take nearly the lifetime of the plant to repay. Darlington costs are at \$12 billion, up from an original estimate of \$3.4 billion. Prices for nuclear plants have almost quadrupled in the last decade, and by the end of this year Hydro will accumulate a debt for these costs of \$18.5 billion - \$2,126 for every man, woman and child in Ontario. Moreover, Hydro is committed to borrowing another \$18 billion to complete nuclear plants now under construction.

Hydro admitted in June, 1982 that "...rising front end costs for nuclear plants have eaten into their relative cost advantage (over coal) and made financing difficult." Rising costs calculated by the industry do not take full account of the real costs of decommissioning, waste disposal and accident repairs. U.S. studies indicate decommissioning would cost as much as plant construction. Radioactive plant site and facilities must be entombed, to protect the public from contamination for thousands of years.

Hydro has consistently overestimated consumption, stretching to the limit Ontario's financial resources. Its borrowing exceeds total government borrowing to finance all provincial programs - \$17.5 billion. In 1982, interest totalled \$1.7 billion and Hydro resorted to risky

"capitalizing" interest - borrowing money to pay interest on borrowed funds. Hydro must also borrow to pay back old Bonds which are maturing. A default could be disastrous for Hydro's credit rating. Of the 2.85 billion it borrowed in 1982, it committed \$631 million to "roll-over" or re-finance old Bonds. The prospect for the next seven years is ominous as Hydro adds \$18 billion to its debt load. It is only prevented from exhausting its ability to borrow because its loans are guaranteed by the government - the taxpayers, and it expects its customers to absorb higher electrical rates and increase consumption. Rate increase requests far outstrip inflation. Hydro sought a rate increase of 13.9 percent for last year, increases of 16.4 percent for this year, 16.2 percent in 1984 and 1985 respectively. Turned down by the Ontario Energy Board, it is now asking only 9.7 percent this year - still higher than inflation.

Meanwhile, Hydro pursues customers, promoting increased use of electrical energy, despite its primary mandate to supply electricity on request and promote conservation. Flawed forecasting has led Hydro to build a system capable of generating 50 percent more power than it needs. Perhaps markets will be found in the U.S., but competition is fierce, with Quebec Hydro and Tennessee Valley Authority seeking markets for surplus power.

Two recent revelations demonstrate the worsening financial situation of Ontario Hydro: (1) Ontarians will have to pay through hydro bills and tax levies for the cost of nuclear accidents; (2) Hydro intends to borrow another \$10.1 billion over the next five years - \$3.18 billion in 1983 - to fund its mistaken priorities and the runaway nuclear power program. The news that Hydro will share the costs of nuclear accidents with A.E.C.L. offers scant comfort to Ontario taxpayers, who already pay a large share of A.E.C.L.'s budget through their tax dollars. Under its contract with A.E.C.L., Hydro expended \$217 million more than it received. This money could have been better used to reduce a debt load that will skyrocket to \$28.6 billion by 1987 if Hydro is not brought under control. This alarming debt is guaranteed by the Ontario government, and within four years will represent an average indebtedness of \$13,148 for every family of four.

The latest issue of Hydro's prospectus reveals that only 59 percent of borrowing in 1983 will be used for construction programs. The rest is being used to "roll over" old debt.

Hydro's direction must be changed. It must be brought back to the people, accountable to elected representatives by reconstituting the Select Committee on Hydro Affairs. Otherwise, the alarm raised at Pickering will go unheeded - a perilous mistake.

In my view

By GERRY FELTHAM

The recent shooting down of a civilian airplane sent a "shock wave" throughout our world. Although it was not the first such incident, and, regretfully, it will possibly not be the last, still this disaster has surely served to jolt us into a fuller awareness of the volatile relationships between nations, and our fragile existence on this planet.

Our personal concerns pertaining to family, occupation, local community, church, and so forth, can, no doubt, do much to overshadow any meaningful thoughts we might have about international affairs, and our world community generally. Besides, we can continue scapegoating by blaming our politicians (our policy-makers) and those in positions of leadership for the existing conditions in the area of internationalism. For pessimists and fatalists, present mistakes can either be identified with errors or simply be a judgement of the future in terms of a form of predestination: in other words, no matter what we think, say, do... "Whatever will be, will be!" Each of these approaches may satisfy our consciences, and even give us a feeling of responsibility, by enabling us to assess a particular situation in accordance to what appears to be an "acceptable" reference.

As individuals, what, really, is the nature of our thinking and responsibility in world affairs? Do we, for instance, consider a person bad, even doomed, if he/she does something contrary to our

rights, principles, and laws and that of our immediate community; and do we extend this thinking even as far as a nation-state? In spite of the fact that much of the news reveals cruelty and tragedy, we still need to remind ourselves that as we are each aware of a good person, we can project this positive awareness to and among an infinite number of persons within our world community. Such an action is not just the responsibility of our leaders. It is a commitment for each of us. Failure to meet such a responsibility merely increases our fear and distrust of one another in both local and international scenes, and ultimately, results in an unnecessary loss of innocent lives.

When we, as citizens, fail to see and emphasize the good in persons (and thus in nations), we are unwittingly supporting the policies of governments to become more defensive about national security and autonomy. Under the guise of self-defense we are thus permitting the build-up of a weaponry which can almost instantly annihilate both those whom we fear and those who fear. Even the most down to earth realist must recognize that such "defense" is a rather peculiar form of protection.

Unfortunately, amid the current international tension, it might well be ludicrous to suggest that any super-power should unilaterally disarm, though a substantial reduction in its arsenal might still leave it a formidable opponent to any

**Our past,
your present,
our future.
Good reasons
to become a
Bombardier dealer.**

Bombardier, the most famous name in snowmobiles, needs a dealer in your area. If you're looking for a new business, or if you've already got a compatible dealership that's strong in summer but quiet in winter, this could be the most important opportunity you'll ever have.

This year we're celebrating our 25th anniversary: a quarter century of manufacturing the widest range of snowmobiles in the world, as well as marketing a highly profitable line of parts, clothes and accessories. At Bombardier, we're not just survivors, we're winners.

Don't miss this opportunity to become part of our winning team.

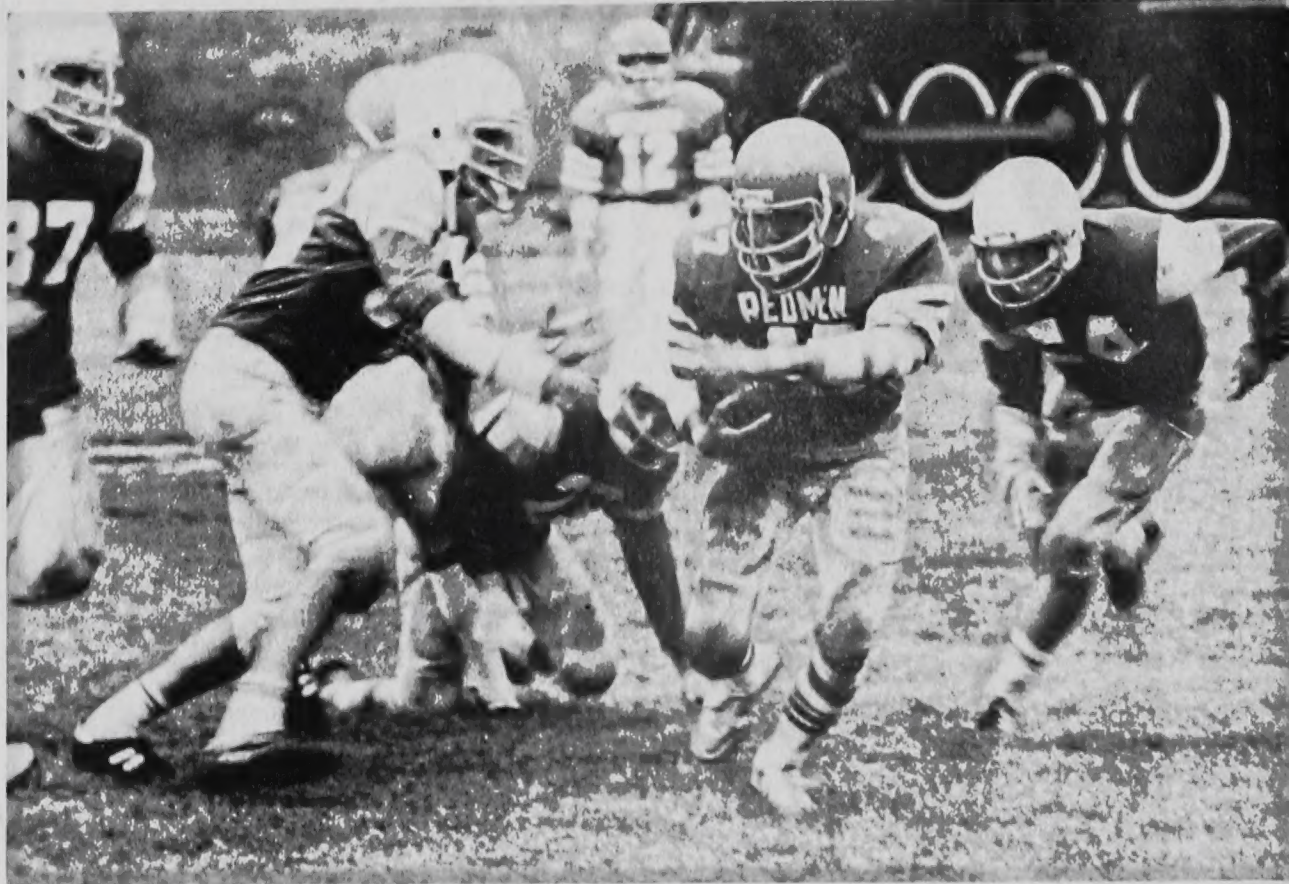

We'll support you, right down the line, with generous programs covering all aspects of the industry and all the marketing help you'll need. But call us today, because we've got big plans - plans that will make the success of our second 25 years even more astounding than our first.

For more information please contact: Mr. D'Arcy Chenier, Regional Manager, 230 Bayview Dr., Barrie, Ontario L4N 4Y8 (705) 728-8600

25th ANNIVERSARY

Redmen roll over Weldon in first season game

Redmen running back Rick Choy eludes Weldon tacklers in second quarter action last Friday. Rain

made the field slick and contributed to some miscues but the Redmen came up with wins in both matches.

Seniors win 9-0, Juniors push score to 34-0

The HHSS Redmen got their first test last Friday at home against I.E. Weldon teams, and the local boys came through with flying colours.

Despite wet, blustery conditions, the Redmen were able to generate strong passing and running attacks while the defense came up with the big plays when they were needed most.

In the senior game, the Redmen completely dominated play in the opening quarter, then snuffed out Weldon's attack for the rest of the match to come up with a 9-0 victory.

The Redmen wasted little time in showing that they could move the ball on the rain slick field at HHSS, scoring on their first possession.

The drive began on the Redmen 40, when quarterback Greg Pearson threw a short pass to Bill Whittaker, who churned out 15 yards before being brought down by a swarm of Weldon tacklers. It was a costly play for the Redmen, because Whittaker suffered a broken ankle, and will be out for the rest of the season.

Pearson kept the drive going with two quick passes to Rob McLeod that moved the ball to the Weldon three yard line. On the next play Pearson elected to carry the ball himself and banged into the endzone for six points.

Paul Vukic kicked the convert and the Redmen had a 7-0 lead.

Later in the quarter, Haliburton tried a field goal from

Weldon's 25 yard line, but Vukic's kick was wide. Weldon conceded a single point, however, boosting the advantage to eight points for the Redmen.

In the second quarter Weldon began to generate some offense, but the Redmen came up with two big plays to snuff out threats, as Steve Smith snagged an interception on one series and Lyle Coghlan recovered a Weldon fumble on another.

There was no change in the score in the third quarter. The Redmen continued to frustrate Weldon drives and engineered a turnover as Terry Sicard recovered a fumble.

Scoring was capped in the fourth quarter when Paul Vukic booted a 35 yard single.

With the minute flag up, Weldon tried a quick kick and recovered the ball to threaten, but once more the

Redmen defenders proved equal to the challenge and Weldon was shut out.

Head coach Gary Brohman praised his team's play.

"I think it was just a super effort by all of our seniors," he said.

Playing strong games on defense were Terry Allore, Rob McLeod, Rick Choy, Jeff Bain and Steve Smith, while on offense, standout players were Greg Pearson, Rob

Please turn to Page 7

Teamates carry Bill Whittaker off the field at HHSS Friday during a senior football game. Whittaker suffered a broken ankle when he was tackled after catching a pass. He will be out for the rest of the season.

Assistant coach John Fitzgerald goes over the finer points of a play on the sidelines during a break in the action at last Friday's season opening game for the

junior and senior football teams. The Redmen came up big, winning both contests over I.E. Weldon secondary school.

Dixie Lee, HHSS soccer players square off in game

By JIM MILNE
The Dixie Lee soccer team played the High School Seniors last Sunday in the rain. Eleven players turned out for Dixie Lee, three less than expected. Seven turned out for the Seniors. Probably the rain discouraged many. The game ended in a 4-4 tie but more importantly about

\$50 was raised for the Terry Fox Cancer Fund.

We would like to thank those who turned out and those who made donations but special thanks are due to Eoin Ross who played goal for Dixie Lee and Tony Abela, the referee.

Some Dixie Lee players are anxious to play the Seniors

again next Sunday, September 25. Anyone who would like a good game is welcome to play for us.

IF YOU DON'T REMEMBER YOU MAY NEVER FORGET.

There are some very good reasons to stop for stationary school buses. Such as the penalties for not stopping, which could include six demerit points, fines of up to \$1,000 and even imprisonment.

But the most important reason of all is simply this: Your mistake could cost a child's life. And that kind of mistake is never forgotten.

So remember, drivers going in both directions must stop for a school bus flashing its red lights. And

drivers approaching from behind must stop at least 20 metres (about 4 car lengths) behind the bus.

And this year, there's something new to watch for. Every school bus in Ontario is now equipped with a STOP SIGN ARM that is automatically raised when children are getting on or off a school bus.

So keep an eye out this fall for flashing lights and stop signs on school buses. Please, don't take a chance with the life of a child.

CAN YOU AFFORD TO FORGET?

McLeod, Terry Hobden, Glen Clark and Paul Vukic.

The Junior game was also an all Haliburton show, as the Redmen completely dominated the game to come up with a 34-0 win.

The Junior Redmen opened the scoring in the first quarter on a triple option play that saw Mike MacNaull score from the eight yard line. Lenny Johnson's convert attempt was good, and the Redmen had a 7-0 lead.

The Redmen were short on the kickoff and recovered the ball, setting up the second TD of the quarter, with MacNaull once more carrying the ball across. The convert was missed, leaving the score 13-0.

There was no further scoring in the second quarter, but Peter Allore came up with a fumble recovery and MacNaull intercepted a Weldon pass to keep the visitors off balance.

Early in the third quarter the Redmen were forced to punt from the Weldon 40

yard line after their first possession. Weldon fumbled the ball, and it rolled into the endzone, where Jeff Hancock recovered for the Redmen to put six more points on the board.

A two point conversion attempt was good as quarterback Trevor Powers threw to Alex Little.

The Redmen scored again in the fourth quarter when Mike Blake went in for a touchdown and Lenny Johnson kicked the convert.

Later, Trevor Powers engineered a perfect triple option play for a 30 yard TD. The convert was unsuccessful, leaving the score 34-0 for the Redmen.

Ron MacDonald, Tom McLeod and Rod Mifflin played strong defensive games for the junior Redmen, while Glen Hall, Mike MacNaull, Mike Blake, Paul Allore and Trevor Powers were standouts on offense.

This Friday the Redmen will play at Brock, and the following Friday they will be back in Haliburton to take on Fenelon Falls.

The Haliburton Redmen squads played strong games in their season opener last Friday despite a steady

rain that had them wrapped up in capes while they waited on the sidelines for the call to take to the field.

Trent Severn News

The storage lakes in the upper watershed of the Trent-Severn Waterway have declined 4.1% since September 6 and stood at 44.9% of full capacity on September 12, 1983. The outflow from these lakes was increased last week due to falling water levels on the navigation system.

September usually sees a sharply reduced demand for water from the storage lakes as evaporation losses decrease, and rainfall increases. This year, due to the extremely dry conditions in July and August, inflow to the Kawartha Lakes from rainfall and groundwater has been so low that the demand for storage lake is still greater than it is during the average summer period. During the past week, the outflow from the Kawartha Lakes has been only about one-half the total flow being

brought in from the storage lakes and yet the lake levels have not risen all week.

The Trent-Severn Waterway method of operation is to maintain all the storage lakes at the same percentage of storage capacity until Thanksgiving weekend, then run off any surplus water as quickly as possible. This year many of the lakes are already at the level they normally reach by mid-October, but the continued demand for water is making it impossible to keep all the lakes at the same percentage of capacity. As mentioned last week, each dam has a normal number of "winter logs" left in the dam over the winter. This year workers are having to remove some of these to get the required amount of water. These will be replaced later in the fall following the close of the navigation season.

Forums to be held

The people of Ontario are invited to contribute to the formulation of the legislation and programs for waste management in Ontario for the future.

Starting September 12 and running through October, the Ministry of the Environment will be conducting 20 public forums in centres across the province.

A panel, under the chairmanship of J.W. Giles, Associate Deputy Minister, will receive comments and formal submissions, written or oral, on the Blueprint for Waste Management.

The first of these forums takes place in Cornwall on September 12 at the Cornwall Civic Centre. The

second is in Hamilton, September 15 at the Convention Centre and the third in Owen Sound, September 19 at the Owen Sound Public Library. A forum will be held this Friday in Peterborough at the County Court House. Times for these forums are the same in all locations, from 2:00-4:30 p.m. and from 7:00-9:00 p.m.

The Blueprint was first introduced by the Ministry in June 1983. It is a comprehensive set of proposals for the improved handling of the eight million tons of household garbage and the 60 million gallons of industrial waste that is produced each year in Ontario.

Galway/Cavendish council discusses 507 realignment

At the most recent meeting of Galway/Cavendish council, the following matters were considered:

Doug Huddle attended the meeting discuss the second phase for the re-alignment of highway 507. Two points of concern were on Concession 11, lot 17 (Joe Robertson) and the Galloway (Deer) Lake Road entrance. After discussion with council and Robertson, on the reconstruction of these locations, which will be turned over to

the township, it was decided that resolution 83-225 be amended to change Ministry of Transportation and Communications map #3, in that the existing road will not be a through road, but will be constructed with a turn around at the north westerly right of way, subject to Robertson relocating the south right of way entrance and extending the north right of way to provide access for Mr. Stevenson and further that the Galloway (Deer)

Lake Road location is now acceptable to the township.

B. Berube attended the meeting to discuss the procedure of closing road allowances and deeding them over to the proper recipients. Mr. Ferrill's and Mr. Bernhardt's properties were reviewed in detail as the land in question is adjacent to Crown Land.

The township solicitor was authorized to take whatever action is required to prepare a deed for Mr. Bernhardt

covering parts 1 and 2 on Plan 45R4252, Plan 2 Cavendish together with a right of way over part 3.

Mr. and Mrs. Wilson attended the meeting to discuss their request to purchase one half of First Avenue on Plan 2 Cavendish which was previously refused by council.

The subject of selling First Avenue part lot 19, Concession 4 on Plan 2 Cavendish Township reopened for discussion.

Council will view the site of First Avenue prior to making any decision about closing and deeding it over to the adjacent land owners Messrs. Wilson and Dubois and this matter will be included on the next council meeting agenda.

Minutes of the Galway Cavendish Culture and Recreation Committee meeting of August 16, 1983 were adopted as circulated.

The verbal report of the fire committee meeting held on August 28, 1983 was received.

Resolution 83-286 was rescinded and replaced with the following: "That the Cavendish Platoon be authorized to purchase a 1983, 70 H.P. outboard motor, at a price of \$1,925 plus tax from Outboard Marine in Peterborough.

By-Law 83-34, a by-law to authorize the sale of land, was passed. This by-law conveys block 44 in lots 19 and 20, Concession 12, Galway to the Back Bay Cottagers Association.

By-Law 83-35, a by-law to authorize the sale of land was passed. This by-law conveys block 89 in lots 19 and 20, Concession 12, Galway to the Back Bay Cottagers Association.

The request from Yolanda Mis to purchase lot 58, in lots 19 and 20, Concession 12, Galway was denied.

Severance B-105/83 (Henry James Elliott, Concession 18, lot 7, Cavendish) was supported as it conforms to the North Kawartha Official Plan and Zoning By-Law 78-43, and further that Policy 82-11 apply.

Mr. Boyden's request to purchase that portion of the road allowance leading to water between Concession 4 and 5, Cavendish was referred to Deputy Reeve MacLellan and Councillor Carswell for viewing and submission of their recommendations at the next regular meeting.

The resolution from the Township of Fenelon pertaining to the Bell Telephone enlarging the print in the next issue of the telephone books, was tabled.

The township solicitor was directed to close the file on Mr. Hill, Concession 7, part lot 18, Cavendish, as he has complied with the regulations set down by the Ontario Municipal Board.

A letter was directed to the Minister of Revenue requesting a feasibility study be performed, prior to the township making a decision on implementation of "Market Value" assessment.

Bids for weatherstripping and sealing of the township buildings were opened.

The bid from Dale Goodfellow to weatherstrip and caulk the doors and windows on the township buildings not including the township office in the amount of \$765 was accepted.

Council consented to a minor variance application being made on Concession 7, lot 18 Cavendish, and authorized Kerry and Joan Stevens to bring the minor variance application to the Committee of Adjustment. Council consented to a minor variance application being made on Concession 2, part lot 29 Cavendish.

Committee to advise on health

Advising the Health Ministry on the recruitment of professionals to work in the province's underserved areas, and liaison with local district health councils (DHCs), will be major functions of the Underserved Area Advisory Committee named by provincial Health Minister Keith Norton.

Committee members are: Rene Brunelle of Moon Beam, former MPP and Minister of Natural Resources; Helen Kelleher, Sault Ste. Marie; Dr. Hugh Allen, Sioux Lookout; and Graham Pope, Timmins.

Norton said all four members are residents of Northern Ontario and are knowledgeable about the problems involved and services available.

The committee will be responsible for designating areas as underserved, and will make recommendations on a continuing basis on the operation of the Underserved Area Program.

The program was started in 1969. It now has more than 380 doctors and 94 dentists participating. It offers financial incentives to encourage health professionals to establish or join practices in underserved areas.

It has also established nursing stations in communities which are isolated or have small populations, as well as dental clinics and a mobile dental coach program.

Jack and Hazel Gregory of Carnarvon celebrated their 55th wedding anniversary Sunday, and met friends and relations at a reception in their home. The couple were married in Toronto and moved to Carnarvon in 1948. They have a son and a daughter, seven grandchildren and four great grandchildren.

Senior League

By BERT HARRISON

Well, readers, isn't it nice to have weather a little cooler? It has been so hot and sultry it makes one wish sometimes that we were back in the country.

We had a really interesting service in the chapel Sunday night. The Thompsons took the first part. Harold read the lesson and also offered prayer. Then Rev. Burgess took over from there. Now this may sound funny, but the subject he talked about was money. In Luke, chapter twenty-one, Jesus looked up and saw the rich casting their gifts into the treasury. He also saw the poor widow cast in her two mites, and he said, "I say of a truth, this widow has cast in more than all the rest and she will be truly blessed."

Monday morning down at Fun and Fitness, Wilbert Sisson won over all, playing Bucket Ball. Our administrator, Sydney Brown, Olive Hamilton, Doris Robertson and Melinda Wood have gone to Toronto to discuss better ways to operate senior citizens' homes and left Arnie Wright in the office all alone. Now Arnie is a gal who really can take it, if she doesn't know how to do a thing she will find a way or make it. We hope they have interesting discussions and everything goes well.

When Mary Oliver left us here a couple of months ago, the only way she got around was in a wheel chair, you know. Now she is back with us again, with a new cap on her knee, and with the help of a walker, is walking, which is good to see.

Tuesday morning, Pastor Wicks of Minden Gospel

Church held a service in the chapel that was very fine. He took his message from Psalm 139. On such a lovely day, Agnes and Barbara came to sing and play. Tuesday afternoon instead of cards or Bingo playing here, Linda showed us three interesting movies, "Express Link to Europe," "Crown of Glass," and "Santa's Reindeer." Tuesday night Payne and Deacon came, after an absence of two months or more. They brought a guest who hadn't been here before. I don't recall his surname but his first name was Rick. He surely knew how to make everything click. They played and sang some good old songs like, "You are my sunshine" and "Home on the Range." We thank them for coming back to us again.

The ladies were working in the Craft Room Wednesday afternoon, making different items for the Christmas Bazaar, which will be coming up too soon. The Kinnmount U.C.W. Ladies brought in a dainty lunch on Thursday afternoon. They served it so nicely and were gone too

soon. Thursday night was Bingo night, sponsored by the Kinsman Club, and last night we understand that members of the Kinnette Club lent a helping hand. Then Friday afternoon with Mrs. Coburn still away, we could have no sing song, so we had a play, "The Wilderness Robinson Family." This was the last of a three part play, "The Wilderness Family." We are sure that most enjoyed all three. We thank our girls again for keeping us well entertained. On weekends sons and daughters come from far and near, to visit parents that they hold most dear. We think this is most fine. Some stay for lunch here, others go out to dine.

Thank God there is always a land beyond for us who are true to the trail.

A vision to seek, a becoming peak, a farness that never will fail.

A pride in our soul that mocks at a goal and a manhood that irks at a bond.

And try how you will, unattainable skill, behold it our land of beyond.

Information Centre

by Ruth Foster

Did you know that -- you have the right to appeal Ontario Taxes? Providing that you follow the guidelines set by the Ministry of Revenue, you have the right to appeal Corporation Tax, Land Transfer Tax, Retail Sales Tax, Motor Fuels Tax, GAINS Payments, Tobacco Tax and Tax Grants for Seniors. In our office we have a booklet on "Your Right to Appeal Ontario Taxes," that explains these guidelines in detail. So, drop in to our office at the Drag River Municipal Building in Haliburton for further information, or call us at 457-2733.

We are open from Monday to Friday, 10:00 a.m. until 4:00 p.m. Another interesting note is that on October 6, 1983, Mrs. Christine Dukelow, a home economist from the Ministry of Agriculture and Food, will be in Haliburton County conducting two workshops on "Simple Home Repairs." The first workshop will be held in Haliburton from 9:00 a.m. until 12:00 p.m. and for further information please call Marie Wallace at 457-2941. The second course will be held in Minden and Mrs. Lyman Cox has all the details concerning this one. Mrs.

Cox can be reached at 286-1158. This course is free and Mrs. Dukelow can accommodate up to 30 people per session. She will also need 5 to 8 volunteers to help her man the stations and says, "they do not have to have had any previous experience." If you would like to volunteer for this, call Marie Wallace at 457-2941.

Hydro expands incentives

Ontario Hydro intends to expand its dual energy program incentives beyond the plenum heater program announced last spring. Dane MacCarthy, Vice President of Marketing said "Customers who are considering converting to a dual electric-oil space heating system using baseboard heaters, heat pumps or hot water heating (Hydronic) systems will now be eligible for assistance," he said.

Effective immediately, customers who reduce their oil consumption by at least 50% by installing a dual system will receive: • a taxable grant under the Canada Oil Substitution Program (COSP) up to a maximum of \$800 or 50% of the installed cost, whichever is the lesser. • up to \$100 in services from Ontario Hydro which cover the cost of electrical

What do wetlands mean?

What do wetlands mean to you? Are they something more than funny little symbols on a topographic map? They certainly are to the Ministry of Natural Resources.

Wetlands provide very important habitat for many forms of wildlife and plants, especially wild flowers; they provide spawning, and nursery areas for game fish; they provide areas for recreation and outdoor education; they act as water purifiers. Wetlands regulate the release of nutrients to downstream waters; stabilize soil; prevent erosion; act as buffers and prevent damage from storm and wave action; maintain ground water levels; and regulate stream flow.

Despite the importance of wetlands, they are being lost at an alarming rate. Only about 13 percent of the original 5.5 million acres of wetland in Southern Ontario remain today. In parts of Southwestern Ontario, losses have reached 100 percent; while in Southern Ontario, as a whole, wetlands are being lost at roughly one to two

percent per year.

The Ontario Ministry of Natural Resources and Environment Canada spent considerable time and effort developing a wetland evaluation system for Southern Ontario. The system is designed to individually examine the different wetland values. The results are then combined for an overall rating of that wetland's value, which can then be compared to other wetlands. This system will help managers decide which wetlands are the most important, and which features of each wetland contribute most to that overall importance.

The evaluation of Southern Ontario's wetlands has begun in earnest. Here in the Lindsay District, Ducks Unlimited and the Ministry of Natural Resources are involved in a cooperative project that will see many of our local wetlands evaluated under the new system. Funding for the project comes from a Federal-Provincial Job Creation Program under Section 38 of the Unemployment Insurance Act.

People must strive to promote good in the world, reader says

from page 5

aggressor. Consequently, what can be done? At the risk of sounding (at least to the pessimists and cynics) naive, the following simple, obvious statement needs to be proclaimed: Each of us must take responsibility for reducing any paranoia existing between people (and thus within our world). No doubt, such behaviour is much easier said than done but do we really have an alternative?

Possibly the first step towards more trusting relationships in our world is to see, believe, and feel that we actually do reside on one planet; that we are all of one humanity (in spite of our different languages, colours, customs, philosophies, religions, etc.); and that we have a fundamental obligation to cultivate a respect and an appreciation of each other, no matter where we live. We need to acknowledge sincerely, that "My country is the world," and "I am one of its citizens." (Personally, I believe that the teaching of such an idea through educational literature and schools is long overdue.) Such a concept need not change our attitude and appreciation for specific areas and cultures. In fact, we should still feel patriotic about the land of our birth (or adoption) as long as we are not assuming an air of superiority to the point where we consider others inferior (when they are not). However, such idealism must begin and become realism in each of us.

Next, we must be prepared to accept as fact that we have reached the era when world wars are obsolete, just as slavery is no longer tolerated in a civilized society. This does not mean, of course, that warring factions within and among nations will not continue to use conventional (at least non-nuclear) weapons to settle their disputes. As in the case of world wars, we ourselves can only end such conflicts by being determined not to entertain bigotry and narrow nationalism in any form, no matter where they exist.

Hydro increases incentives for oil conversion

from page 8

inspection as well as pre-installation and in-service checks.

• a \$100 interest free loan from Ontario Hydro. This loan will be waived by Hydro after three years from the date of installation, providing the owner retains the system as it was originally installed to avoid electrical system peaks.

For example, the typical cost to customers converting to an electrical-oil plenum heater dual system will be approximately \$500 after the above incentives.

Apart from affecting a change in our own thinking, we need to impress upon our leaders in all forms of government that we want our laws and our tax-dollars to be directed more and more toward the instruments which will develop trusting relationships within our world. Even though we may admit that our present national defense may still be a necessary evil (being armed to kill cannot be construed as "good" even in the name of defense), yet there are simple, effective measures which our governments can do immediately. Such actions will not only assure but vastly improve our life on earth. Here are a few suggestions to our governments:

- subsidize travelling costs to enable most individuals and groups to visit any populated area of the earth;
- reduce considerably the cost of any form of public communication, such as telecommunication, and postage;
- encourage and support exchange groups (of all ages), especially between countries purported to be hostile to one another;

• develop and expand considerably the twinning concept between nations for both urban and rural areas, especially with countries of radically differing philosophies and economies;

• persist (possibly at the UN) in the establishment of a universal language, to be taught in the schools of our world, while still retaining national languages. (It takes only one country to start this idea.)

Besides relying on governments we must also commit our own thoughts and practices to what is good for humanity in our world community. Governments may provide instruments of good will and peace which can facilitate better and more extensive areas of human communication but we must still make the best use of these opportunities. To become more constructively involved in world affairs, we ourselves (not just

our diplomats) will have to re-examine our management of time, talent, vocation, and resources. This could mean a new list of priorities for each and all of us. Instead, for instance, of spending our holidays at the same cottage or beach each year, we might choose a "vacation" in an entirely different part of our world. Most likely we could make do, for another year or so, with the same vehicle (or do without that extra ski-doo) in order to fund a self-help project in a particularly needy area of our world. This might be a much better use of our money than what we are presently experiencing. Enabling a blind person to see, the sick to get well, the unemployed to get work, the fearful to trust, and so forth, will not provide us with recreation and entertainment but it can give us a tremendous feeling of good will towards our fellow-humans. One might cite an infinite number of ways through which each of us can leave our world better than we found it.

These ideas are neither new nor too idealistic. We can no longer afford to ignore them, and pass them over as impractical. Can we, for instance, honestly say that spending billions of our dollars each year for the purpose of a form of defense -- a "false" (since it can ultimately contribute to our eradication) sense of national security -- is really practical? Yet this is what we are acknowledging and financially supporting. Has the time not come to begin turning things around by working and paying for the instruments that bring us a truer security, and a relaxation of tension in our world?

It is the responsibility of each of us to change our thinking, and to make our thoughts known to others, including those who represent us in councils and parliaments. If we fail to pursue worthy, positive, and really effective actions to bring about good in our world, then we can only blame ourselves for the loss of further innocent lives in the future.

WE'VE GOT THE HOTTEST FLOOR SHOW IN TOWN!

GMC S-15.
The complete line of compact Pickups and Club Coupes (gasoline or available new diesel) and S-15 Jimmys.

PONTIAC 2000 SUNBIRD.
Our largest front-wheel-drive family now offers more turbo models than any other carline sold in Canada.

BUICK SKYHAWK.
Trim-size elegance in our smallest Buicks. High technology makes it possible, high quality makes it Buick.

BUICK CENTURY.
Bringing together high tech and high value, six-passenger Century moves farther out front with new, mid-size, front-wheel-drive wagons (available late fall).

PONTIAC FIERO.
It's here, North America's only mid-engine production car ever, and the first two-passenger Pontiac. Non-rusting Enduralflex body panels help make Fiero unique. As well as exclusive. Only Pontiac's got it!

Buying or leasing, come in for a test drive.

Never have we introduced such a total, all-encompassing lineup of cars and light trucks. Whatever you have in mind for '84, we've got it for you in great style.

Looking for economy with flair? We have Acadian and Pontiac 1000 hatchbacks, five-passenger Buick Skyhawks and the most models ever of Pontiac 2000 Sunbird. You name it, we have it!

Subcompacts, compacts, mid-size and full-size Pontiacs and Buicks, sporty cars, family cars, personal luxury cars, a full range from two-passenger Fieros to eight-passenger Parisienne station wagons, even a couple of convertibles. From thrifty 4-cylinder engines through V6s and V8s, gasoline or diesel, we've also got your kind of power.

Not to mention our fabulous GMC trucks for '84, from compact S-15s, now including small diesel pickups, to full-size gas or diesel pickups, Suburbans, Jimmys and Vans.

Come on to our place and let us prove that, dollar for dollar, model for model, our 1984 cars and trucks present the hottest floor show in this or any town!

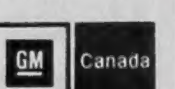

Some equipment shown or mentioned is available at extra cost.

Kinmount Korner

By MILLIE MOSS

Joe, Terry and their sons, Jason and Kelly Lonsdale, of London, England, thoroughly enjoyed their two weeks recently, at the home of parents/grandparents Betty and John Lonsdale of The Pines. Betty and John drove to Toronto to meet their family at the airport and stayed a couple of days with their other son, Bill, of Etobicoke, before returning to Kinmount. During the family's stay, they visited Niagara Falls, Ontario Place, Marineland, the C.N.E., swam in Kinmount rivers, visited our Kinmount Fair, made lots of friends and in general enjoyed themselves. At time of departure, Joe told his parents, "If ever I can come to Canada I should like to settle in Kinmount. The people are so friendly and it's such a pretty place." The folks would like to thank everyone who were so kind and made their stay a pleasant one. Joe took a trophy home as a memento of this being the man who caught and held onto a pig at the big fair. Way to go Joe! The boys also won a number of stuffed animals which they carted home in a plastic bag and when going through Customs, the man remarked, "Maybe we should post a sign - don't feed the animals." Come back soon folks.

Viola Gammon spent a week or so recently with her son Ralph, his wife Verna and their daughter, Kimberley, at their Toronto home. Vi returned home to Kinmount Sunday, September 11 following her enjoyable week. They toured the museum along with other local attractions.

It was quite a rainstorm we had through the night of September 10 and 11. No one in our house even heard it and I sat watching it and wondering how they could sleep through the noise.

Attention all parents of two to five year olds: a meeting and registration for the Kinmount playschool will be held at the Kinmount Community Centre on Wednesday, September 21 at 8:00 p.m. Any questions may be answered at that time. This school should be good for preschoolers and a break for the moms. Plan to be there.

Happy birthday to Boyd Williamson September 15 and to Eileen Shepstone on September 14. Also to Georgina Swinson, happy birthday on September 15.

Congratulations to Marg Viney, on her win of \$22.75 in the 50/50 draw, Saturday, September 16.

Results of eleven tables of euchre held at St. Patrick's

C.W.L. Tuesday, September 13 were: ladies' high - Bertha Stata; ladies' low - Mary Phillips; men's high - Vi Cooke; men's low - Ruth Kellett; lone hands - Vi Cooke. I'm told there were people present who had been coming up our way for holidays for over 34 years and never realized there were card games. For shame - you haven't been reading the Echo.

Percy and Florence Sherman would like to thank their many friends, relatives and neighbours for the wonderful party, gifts and best wishes given them for their 50th wedding anniversary. Your kindness will make it a memorable occasion that will always be treasured by both of them. Guests attendend from Oakville, Mississauga, Brampton, Bramalea, Toronto, Oshawa, Lindsay, Haliburton, Port Hope, Minden, Norland and Kinmount. There were 150 guests present and I hear there were a number of couples there who had already celebrated their own Golden Wedding. Who says marriage doesn't last.

I was so very sorry to hear Sam Telford is ill and a patient in Peterborough Civic Hospital. Let's hope he is well soon and back home with Margaret where he belongs. A card of good wishes would be appreciated by Sam, I'm sure. When you're away from loved ones, time hangs heavy and a note from someone who cares means a lot.

The Kinmount and District Horticultural Plant and Vegetable Show is once again behind us. Regardless of the exceptionally hot summer for our gardens, there still was a very good showing of growth at the show which was held Wednesday, September 14 at the Kinmount Community Centre. It was a very good show but I'm sorry to report attendance was 'way down but better things to come next year.

Mrs. Nancy Carefoot had the pleasure of having her two sons, Daniel and George Hudson from Montreal visit with her for three days to celebrate her birthday. Just a few days before this Mrs. Olive Wilson dropped by and brought her a most beautiful bouquet of gladioli and also surprised her by bringing along her camera and taking her picture. While Daniel and George were here, Mrs. Betty Boland prepared a picnic lunch consisting of potato salad, deep fried chicken pieces, Spanish onion and cucumber slices and homemade cheese, bread, butter tarts and cherry squares. The picnic was held at the scenic

lookout in Minden. On Mrs. Carefoot's birthday, her daughter Mary Guillemain held a birthday supper and invited Mr. and Mrs. Boland, Mr. Leonard Hughes and the family, making a table setting of eight. Daniel Hudson brought a chocolate mocha birthday cake from Montreal and George surprised his mother with many goodies. By coincidence it was also Bill Boland's birthday so "happy birthday" was sung twice and both he and Mrs. Carefoot had to blow out all the candles. Mrs. Carefoot received many beautiful and useful gifts and a few tears of joy were shed. She is now a young 79 and everyone wished her many more happy years ahead.

Mrs. R. Percy also dropped by and brought her lovely bouquet of fall flowers.

My own mother phoned me one evening last week and asked if I could "put someone up for the night." I said sure and later that night, in walked my cousins Roy and Louise Ash of St. John's, Newfoundland. We talked 'til 3:00 a.m. and again when we'd had some sleep. Roy brought us two very large photos. One was

an iceberg with a boat sailing by which is in view of their living room window, at a place called Long Pond, Manuels. Bill and I have been there and it's definitely a little piece of Heaven. The other photo is a shot taken (not too often) of the opposite side of Fort Amherst, the entrance to Newfoundland. I'll be framing them both and they'll be a welcome addition to my "down East room" in our basement.

At Kinmount Legion bingo last Friday evening I had the distinct pleasure of meeting a couple of Senior Newfoundlanders who were at the bingo for the first time. (They were lucky too.) They told me they'd just purchased a summer home on Shadow Lake at Norland and certainly never expected to meet an Easterner around her. I don't know why not folks, we're all over the place!

That was quite some storm we had Friday night but it was needed.

Happy birthday to all who qualify, all you sick folks get well, all you well people stay that way and don't forget - read the Echo. I can be reached eventually, at 488-2353.

care last week.

Last week Blanche and Maurice Windsor enjoyed visits from Joyce and Ralph Stewart of Fenelon and Mr. and Mrs. Neil Epp of Toronto.

Mrs. Cliff Skelding is home after spending two weeks in Toronto and Whitby visiting with her children and their families.

Visiting with the Max McKays for a few days were Mr. and Mrs. Ross Misener of Wahnapiatae, Mr. and Mrs. Ralph Vaters of Scarborough and Mr. and Mrs. Harold Tulk and son Mark of Petawawa who will stay for the rest of September as Harold is teaching at the Ontario Fire College in Gravenhurst.

The Senior Citizens luncheon and afternoon card games will be resuming again on Tuesday, September 20 for the winter months.

Carnarvon News

An apology is due Annie Miscio. When I was a child we had relatives in Blairhampton and Ruth Cryderman and I often played with Annie Voiccy and I always think of her by that name, so I did not notice my mistake.

Mrs. Minnie Sisson has moved into her new apartment at Fred Toye's. Wray and June Sisson and Marjorie Marri called on her recently. They are from Schreiber and have been calling on relatives and friends.

On September 17 friends and relatives enjoyed helping Hazel and Jack Gregory celebrate their 55th wedding anniversary. Hazel's sister, Bertha Parker and Hazel's pen pal from Scotland poured tea and a lunch was served.

I'm sorry to say that Laurise McKay is still in the hospital at Haliburton.

Mrs. Muriel Hewitt called on Nina Hussey in Extendi-

Wilberforce News

There will be activity once again at Bill's Hills on October 2 when an Amateur Hill-climb takes place. This will entail amateur riders on their moto-cross, dirt and hill-climbing bikes attempting to climb Mount Williams and beat the clock. Anyone interested in registering should contact Bill Thomas at 448-2924 by October 1. First 50 to register will be accepted. Spectators welcome, admission fee. Last Saturday, September 10 the Corduroy Enduro Racers were in Bill's Hills to put on an exciting race around the moto-cross track. Bill tells us that if we get enough snow this winter he is planning snowmobile races which will keep the track occupied in the winter also.

The above news item was received from Jean Thomas. If you made a note about the United Church rally that will be held in Lochlin, please change the date to October 12. This looks like an interesting event. The

special speaker will be B.J. Klassen who should have some news to bring from the Bay of Quinte Conference. Registration for this occasion takes place at 9:30 a.m.

The Haliburton Home Support annual meeting was held at the Pinestone Inn and was well attended. Representatives from this area are Maureen Finlay of Tory Hill and Bruce Gibbs of Wilberforce, Vicki Agnew, who served this area for a number of years, is now a member of the executive. These people are ready at all times to offer assistance to those who require help. Mr. Gibbs has been involved in such things as providing transportation to clinics and doctors and helping with the meals on wheels project. In Tory Hill Mrs. Chandler has been active in the meals on wheels plan. Anyone needing assistance in any way should get in touch with Mr. Bruce Gibbs in Wilberforce or Mrs. Maureen Finlay in Tory Hill. If necessary the request for assistance will be passed on to the head office.

On Saturday, September 24 an important event takes place in Wilberforce with the dedication of the newly erected cenotaph. The Legion members of Branch 624 Wilberforce will be present and the members of the Ladies Auxiliary. There will be a band and the Legion flags will be unfurled as this beautiful symbol of remembrance is dedicated.

The cenotaph is located opposite the arena, next to the Township Memorial Centre.

At the hall coffee and sandwiches will be available. A bus service will operate to take people to the Legion Hall when the closing has been completed. At the Legion Hall a dinner will be served by members of the Ladies Auxiliary. This is a history making event. Don't miss it. Saturday, September 24 at 1:00 p.m.

Children who attended the summer vacation school,

held at St. Margaret's Anglican Church were joined by their parents on Saturday, September 17 to take part in a program of songs and a puppet show and to view some interesting slides. A pot luck luncheon completed the happy time. Sunday school classes have resumed with a good enrolment. The Rev. John Phillips talked to the children about the sand dollar and each received one of these.

Julie Kennedy, who has taken church services through the summer months, has prepared a new program for the Sunday School. It will now be known as the Sunday School Club, a continuation of the 5 day club. Some interesting changes have been drawn up by Julie and her Sunday School supervisors. Sunday School begins at 9:00 a.m. Next Sunday, before church service begins, a puppet show will be shown to the congregation to acquaint them with one aspect of the new program.

Norland Natter

By KELLY GRAHAM

Hello. As most of you know while some hunting zones are open almost all are right around the corner. If you would like to enrol in a gun course please call H.W. Collins at 454-8821. Mr. Collins, who resides in Norland, had a course last weekend and another is planned for this weekend. But don't take my word for it - if you want all the details remember to call.

There was a Women's Institute Grandmothers meeting recently. Prizes were awarded in certain

categories, but because of my deadline I was unable to print any results. I will try to have them by next week.

The Pioneer Baptist Church in Norland presents films each Sunday night from September 18 to November 6. The films, which start at 7:30, are part of the "Focus on the Family Film Series." The first film, which will be shown on September 18, is entitled "The Strong-Will'd Child."

Caramels

1 cup sugar, ¼ cup dark corn syrup, ½ cup butter or margarine, 1 cup light cream, ½ cup broken black walnuts, ½ teaspoon vanilla. Combine sugar, corn syrup, butter and ½ cup cream; bring to a boil, stirring constantly. Add remaining ½ cup cream and cook slowly to very hard-ball stage. (260°). Remove from heat; add nuts and vanilla. Pour into greased 8x8x2 inch square pan. Mark in squares when partially cool. Cut when cold. Wrap caramels in squares of waxed paper; keep in airtight container. Makes 36 pieces.

Some of you may have noticed that construction has

begun on the new I.G.A. store in Coboconk. This store may help reduce some of the long lines shoppers in the old store are accustomed to.

The euchre scores for Thursday, September 15 were as follows: Ladies' High - Dorothy Brown, Men's High - Mike Puterbaugh, Lone Hands - Roger Gostlin.

The movies featured at the Highlands Cinema in Kinmount for September 23-24-25 are "The Secret of Nimb" (7:00, Family) and "The Hunger" (9:30, Restricted).

Get the jump on winter!

Get the drop on value!

Top quality at low, low prices. That's value! And that's what you get with our annual back-to-school offer on cozy, two-piece Ski-Doo® snowsuits for kids.

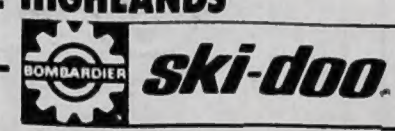

Because these suits are snug, rugged and good looking, they're ideal for both play and school. Because they're two-piece, you can mix and match pants and jackets with the kids' other favourite togs. And because of these special prices, they're bound to go fast! So come see us soon, while our selection lasts.

These snowsuits are available in a wide variety of colours.

Gooderham News

By MARY HADLEY
Rev. Gagnon, his wife and four children of Port Hope visited at the home of Tommy and Vivian Dovell last weekend. While here they visited their many friends. Rev. Gagnon was pastor at the Gooderham Pentecostal church 13 years ago.

George Maxwell of Edmonton spent a few days last week visiting his mother, Ruby Maxwell and other friends.

The U.C.W. met at the home of Mrs. Mae Pickens last Monday. Grace Billings, president, conducted the devotional period. The topic, "Service with Joy," was taken by Vaneta Pickens. Following the business period, the hostess served lunch.

We are pleased to report that Walter Madill is progressing quite favourably following hip surgery at St. Joseph's Hospital, Peterborough.

The United Church Women's Rally will be held at Lochlin United Church on October 12. The guest speaker will be B.J. Klassen.

A bridal shower honouring Deanna Bird was held in the United Church basement last Thursday evening. Beautiful and practical gifts were received by the bride-to-be who showed her appreciation. Hostesses Jean Goff and Pat Thorne served a tasty lunch. Deanna will wed Ed Davis on October 5 in the Haliburton Baptist Church.

Mrs. Lulu Dovell visited at the home of her grandson, Gary Dewey in North Bay last week.

The men's baseball tournament was scheduled for Gooderham's Horseshoe Days but could not be completed due to rain. Four teams registered - Snowdon, Galway, Irondale and Gooderham. This was completed during Klondike Jubilee Days. Irondale won the trophy while Gooderham

placed second, winning the consolation trophy. All games were good and the four teams can be congratulated. The league are now finishing their semi-finals.

Recently our Volunteer Firemen had quite a task when a grass fire burned over 40 acres south east of Troopers Lake - the original Dovell farm. When the hoses could not reach one hot spot a call was sent to the M.N.R. at Pembroke. They responded with aircraft capable of dropping water - 800 gallons from its pontoons. As a result the fire was quenched before spreading further.

We owe much to our volunteer fire brigade. Last Thursday they held a three hour practice session to help in their training in the use of their equipment. These sessions are held regularly and aid in their efficiency. Soon they plan on staging automobile accident extrication - pulling victims out of a mock up. Thank you, men!

We are pleased to hear that Ken Webster is out of hospital and is recuperating the home of his son in Ajax.

The Gooderham Gun Club held its final shoot of the 1983 season on Sunday, September 18. The range officer reports that the summer programme was very enjoyable and successful.

Mr. Ted Stansbury, father of Donald Stansbury of Gooderham, passed away last Thursday in Oakville. Interment took place on Saturday at the Glamorgan cemetery with Rev. Sauve officiating at the graveside.

The late Mr. Stansbury was 96 years of age. Last year he and his wife, who survives him, celebrated their 75th wedding anniversary.

Our community extends sympathy to his wife, his son and daughter-in-law.

Coboconk News

By SHEILA LAKE

A light Cessna plane came down in the field at the Rod Harrison farm near Norland about 3:15 p.m. on Wednesday, September 14. I was calling on my sister, Catherine Harrison when we heard the plane, realized it was in trouble and saw it come down. The young pilot, 21 year old Steven Gill of Collingwood and his friend had been to Ottawa and were returning to Barrie Airport. The pilot did a terrific job of bringing the plane in safely as it had run out of fuel. The plane landed on its wheels without any damage. A har-

rowing experience for the pilot and passenger and for us as we expected it to hit the house.

A well known former Coboconk man was laid to rest on September 17, in Coboconk cemetery. Mr. C.O. Phillips, or "Ob," the man who made the old Cedar Villa resort so popular as a "Better type" summer resort, had not been well for some time. He was in his 81st year and a resident of Carescent Nursing Home in Lindsay. Born and raised in Coboconk, his relatives are mainly here. Our sympathy to his family.

Mrs. Jean Callan is home after a stay in hospital.

We're glad to hear you are home, Jean.

The long awaited new I.G.A. store is in its infancy with work beginning this week just north of the old veneer factory. More about that later.

Winners in the last two Seniors card games were as follows: Euchre: ladies 1st - Kay Clodd, 75; 2nd - Vina Neal, 73; most lone hands - Helen Alguire, 4; consolation - Mildred Jewell, 44; gents 1st - Howard Stewart, 77; 2nd - Olive Austin, 71; most lone hands - Bill Brians, 5; consolation - Tom Bowins.

Bridge: 1st - Peggy Saunders, 5790; 2nd - Charlotte

Patterson, 5010; consolation - Hayden Nelson, 1580.

Euchre: ladies 1st - Myrtle Lucas, 73; 2nd - Olive Austin, 70; most lone hands - Thelma Harper, 5; consolation - Hazel Young, 45; mens 1st - Donald Alguire, 84; 2nd - Dorothy Brown, 73; most lone hands - Basil Walker, 5; consolation - Rhilda Hunter, 42. Bridge: Stevie Steeves, 4700; Kay Terry, 3910; consolation - Carita Steeves, 1540.

Congratulations to Randy Greer and Heather Davis who were married at Norland on September 17.

Agricultural Report

Beware of Silo Gas!

It's silo filling time again in Central Ontario, and farmers have to be aware of silo gas.

Silo gas can be deadly. Nine farmers have been killed by silo gas in the past 20 years. Many more farmers have suffered irreparable damage to their lungs.

Low concentrations of nit-

rogen dioxide (silo gas) cause "farmer's lung." It burns the respiratory tract causing asthma-like symptoms, and eventually victims become so sensitive that they find breathing difficult near any type of silage material.

Gas can be produced within 24 hours after the silo is filled. You never be sure whether or not the gas is

present. It is too tricky to identify. It may appear as a yellow-brown gas at silage level, or it may be invisible. It can smell like laundry bleach, but it has to be at lethal concentrations to do this.

Coughing is the first sign the gas is affecting you, and at high concentrations, it can kill in seconds.

The best advice is to make sure the silo and feed room are well ventilated and stay away from them for three weeks. If you must work in the silo, use a self-contained breathing apparatus with a lifeline to someone outside the silo.

Running the silo unloader blower for one-half hour will help clear gas from the silo.

Dorset News

By PHYLLIS BRISCOE

"Someone crossed a carrier pigeon with a woodpecker - now he not only carries the messages, he knocks on the door."

Apologies: I guess I will have to get a follow up to take over when I suddenly take off and don't get the news in, but I will try not to let it happen again.

My brother, Leom McKey, has returned home after having major surgery at Toronto General Hospital. We are happy to report that he came through with flying colours and after a period of rest and good home cooking, should be as good as new again.

Mrs. Marjorie Walker and her son Ralph Atkinson, who has a summer home on Lake of Bays, were welcome visitors at the home of Marion and Walt Tyson this summer. The Walkers had a cottage on the lake for many years, having built in 1949, but Mrs. Walker now lives in Huntsville.

The Lions Fish Derby was held last week at Camp Dorset, with a good turn out and lots of fun and good food for everyone. Ron Richardson won the Bobby Baum trophy and Hans Weidner the Lions Club trophy. Congratulations to both.

Ron and Lee Payne and Boyd and Diane Griffin are off on a bow-and-arrow hunting trip. They have gone by camper to Red Deer, Alberta, where Ron's brother lives and are going to hunt elk. Sounds like a great sport.

There was a wedding in Knox United Church on Saturday, September 10 when Laurie Cieri of St. Catharines and Bob Kent of Paint Lake were united in Holy Matrimony by Rev. Kim Wright. The reception was held at the Dorset Community Centre, with 65 attending. The dinner was catered by the Dorset Life Liners.

The Foot Clinic is starting again for the winter with the

first being held on Wednesday, September 21. It will again be held at the Dorset School. Please call 766-2237 for an appointment.

To finalize the results of Pioneer Week there was a get together in the Community Centre last Wednesday evening. Films were shown of early days in the area as well as some of the Seniors dinner in May and the send-off dinner early in July, as well as some of the activities during Pioneer Week. Pricilla Lewis, who spawned the idea and recruited members of the community to take on the responsibility for the various activities, presented the community centre with a cheque for \$4,300, a profit from the events during the week. Everyone was thanked by Pricilla for their co-operation and the praise was surely deserved as a great many people worked very hard. And a thank you to Pricilla for conjuring up the idea and getting everyone involved. It was a very happy and profitable week for the community.

H.H. To peel onions quickly, plunge them briefly into boiling water and the skins will slip off easily.

Let Carrier pump up to \$1330 back into your pocket!

Here are 3 ways to save when you purchase an energy saving Carrier heat pump:

1. Federal Off Oil Grant of up to \$800.00.

Sherborne et al council minutes

from page 2

noted. Delbert Page, Road Superintendent, was commended for his ingenuity and direction in having the work done.

Ministry of the Environment letter of July 29, 1983 on the subject of KBL Bridge Association, bridge construction across Bear Lake Narrows, Livingstone Township having been circulated to members of council was noted and duly filed.

The road superintendent, having reviewed construction proposals of Bell Canada for necessary works along township road allowances, gave his approval with certain conditions to be placed within the by-law.

By-Law #875 for the purpose of authorizing Bell Canada to undertake necessary construction work in Part Lot 5, Concession 13, McIntosh Township, was passed.

By-Law #876 for the purpose of authorizing Bell Canada to undertake neces-

sary construction work in Part Lot 29, Concession A, Sherborne Township, was passed.

Council was in receipt of Satisfactory Waste Disposal Site Inspection Reports done on the McClintock Site and Dorset Site on June 24, 1983.

Council directed the clerk to make application for Land Use Permit of Part of Lots 23 and 24, Concession A, Township of McClintock for the land use of Municipal Garbage Disposal Site. Rental fee is \$51.50 for a period of use from September 2, 1983 to September 1, 1984.

Next on the agenda was a discussion on recently advertised road allowance closures.

By-Law #877 for the purpose of closing and stopping up part of the Original Shore Road Allowance, in front of Lots 25 and 26, Concession 14, Township of Sherborne, in the County of Haliburton, was passed. Parts 1 to 8 inclusive on Plan 19R-2822 will be sold to the adjoining

owner or owners of them.

By-Law #878 for the purpose of closing and stopping up part of the road allowance in front of Lots 25 and 26, Concession 14, Township of Sherborne, in the County of Haliburton, was passed. Parts 9 to 16 inclusive on Plan 19R-2822 will be sold to the adjoining owner or owners of them.

By-Law #879 for the purpose of closing and stopping up part of the Original Shore Road Allowance in front of Lot 9, Concession 5, Township of McClintock, in the County of Haliburton, was passed. Part 1 on Plan 19R-2855 will be sold to the adjacent owner or owners of them.

Consent be given to Land Severance Application under File #H-130/83 (Marie I. Hodgins) on lands on Part Lot 16, Concession 12, Sherborne Township subject to the following condition: that Ministry of the Environment give their approval on both severed and retained parcels.

cells.

Council recommended that consent be given to Land Severance Application under file #H-135/83 (R.M. Creighton) on lands on Part Lot 4, Concession 2, Livingstone Township, subject to the following condition: that it is understood the purpose of this severance is for right-of-way.

Leo Fortney at the hour of 1:15 p.m. presented members of council with a development proposal to be established on Part Lot 29 and 30, Concession A, Sherborne Township. Current access to said parcel of land is by water. Fortney's request to council was for an entrance permit off Harvey Avenue. Council informed him that it would be necessary for both Road Superintendent, Delbert Page and personnel from MTC to do a site inspection. Secondly, Arthur Haynes would review building plans as to compliance to Restricted Area By-Law #839. Fortney was

told that within the next two weeks it was hoped that the necessary data would be compiled to allow council to consider his request. Fortney left the meeting at the hour of 1:35 p.m.

Curry Bishop, O.L.S. was in attendance at council and heard at the hour of 1:40 p.m. Bishop answered questions on the plan of subdivision proposal under the name of Kenneth Balkwill on

Fire losses in county totalled \$656,000

Fire losses in Haliburton County totalled \$656,700 in 1982, according to a report from the Ontario Fire Marshal's office.

The report says fire departments in the county fought 26 blazes over the year. One person died in those blazes, but no firefighters were injured.

Anson, Hindon and Minden had the most fires, a total of 10, with damage estimated at \$288,350.

Dysart et al, the largest and most populated municipality in Haliburton County, had only six fires in 1982, with damage kept to \$82,500.

There were three fires in Monmouth Township in which one person was killed, and damage totalled \$87,000.

Two fires were reported in Snowdon Township last year, with damage totalling only \$850.

Stanhope Township also had only two fires, but damage was high, at an estimated \$90,000.

In Sherborne, Livingstone, McClintock, Lawrence and Nightingale Townships at the north end of the county, two fires were reported last year. No one was injured, and damage totalled \$88,000.

Cardiff Township had only one blaze, which caused an estimated \$20,000 damage.

There were no fires in Bicroft, Glamorgan, or Lutterworth Townships.

Electrically ignited fires were the biggest single identifiable cause of

blazes in Ontario last year, according to the report, accounting for 4,091 fires, or 16.73 percent of the total.

Cooking was the second major cause, accounting for 11.22 percent or 2,744 of the 24,450 reported fires.

Smokers were the third most common cause of fires. They are blamed for 2,685 fires, or 10.98 percent of the total.

Open flame caused 2,339 fires, or 9.56 percent of the total.

Heating was responsible for some 2,014 fires, or 8.23 percent of all reported blazes.

All other causes accounted for 10,577 blazes, or 43.28 percent of the total.

**A MESSAGE TO
PARENTS REGARDING
FLUORIDE
SUPPLEMENTS**

Fluoridation of the water supply reduces tooth decay by 66 percent.

However, in our Health Unit Area, no municipal water supplies are fluoridated.

If children up to 14 years of age take daily fluoride supplements (tablets or drops), benefits equivalent to fluoridation can still be obtained.

(These benefits are in addition to those received from fluoride toothpastes, treatments and mouth-rinsing programs.)

To ensure your child is receiving the correct dosage, contact your physician, dentist, or Health Unit Dental Services for a prescription for Fluoride Supplements.

Families with private wells should first obtain a free water test kit (for fluoride) from your local Health Unit office. Many wells in our area contain adequate natural fluoride.

Sherborne et al council

from page 14

lands located in Part Lot 5, Concession 2, Township of McClintock along the shore of Tock (Otter) Lake. The proposed subdivision indicates boat access from the public dock near the southeast corner of lake. Arthur Haynes was to do a site inspection to collect data so that a questionnaire forwarded by the Ministry of Municipal Affairs and Housing could be completed.

Clerk-Treasurer, Diane J. Griffin left the meeting of council at the hour of 2:10 p.m. at which time Deputy Clerk-Treasurer, Mrs. Irene R. Crewson took over the recording of the minutes.

The letter from Mr. and Mrs. Herbert Ball of Tock Lake dated August 9, 1983 was noted by council and filed.

Mr. Curry was made aware that in order for the buildings to comply with Zoning By-Law #839, all properties within the subdivision should include the closure of the road allowances abutting each lot and that the closures should be part of the subdivision plan.

A Mrs. Parker was spokeswoman for the Otter Lake ratepayers who were in attendance at the meeting. She asked various questions and expressed concerns regarding the subdivision application. Council advised her that all subdivision plans had input from all ministries in order to protect that which is already there prior to approval of such subdivisions. Curry Bishop and the ratepayers then left the meeting at 2:15 p.m.

Farm News

but the blower must be close to the silo surface to be effective.

Also, be careful in the feed room. Make sure it is well ventilated because silo gas is heavier than air and it flows out of the silo into the feed room.

The ratepayers of McComb Point Road expressed concerns to council regarding the creation of the parking lot. Council advised the ratepayers that the severance would not be satisfied until the parking lot was constructed. Council also advised them that such construction was not the responsibility of this township.

It is to be noted that council was in receipt of a Plan of Survey outlining the parking lot and it was filed accordingly. Council was also in receipt of a letter from John C. London of Strathy, Archibald and Seagram which was noted and filed. The ratepayers of McComb Point Road left the meeting at 2:45 p.m.

Mrs. Marilyn Jarvis, Councillor, declared "Conflict of Interest" stating that her conflict was "pecuniary interest of \$1 of love and affection" and refrained from all discussion and voting.

Victor Furnandiz presented to council that he had prepared a draft site specific amendment to By-Law #839 and that the final draft would be presented to council in the near future. This site specific amendment would satisfy conditions under Severance Application No. H-203/82. Furnandiz completed his presentation to council, however, he remained in attendance for the remainder of the council meeting.

Mrs. Jarvis then resumed her councillor duties.

General Accounts were ordered paid in the amount of \$372.02.

A lengthy discussion took place prior to passing the following resolution, in that council discussed some concerns regarding recent social functions that took place in the area which involved the O.P.P. and some discussion took place regarding the drinking age. Council concluded that as the following function would take place in a controlled environment, they passed the following

resolution: "that Council for the Corporation of the Township of Sherborne, McClintock, Livingstone, Lawrence and Nightingale have no objection to Oktoberfest activities taking place on September 9 and 10, 1983 on lands owned by 483288 Ontario Limited (Kelvin Stone) described as being part of Lot 3, Concession 12, Sherborne Township."

A letter from Bell Canada dated August 8, 1983 regarding the extension of free calling from Dorset into Huntsville was noted and filed.

Mrs. Marilyn Jarvis updated council as to the Oxtongue Lake Community Centre. She advised council that Mr. Pittman had formally resigned his seat as Treasurer (a letter was received by council and duly noted and filed) and that Mrs. Julie Shepherd would take his seat as Treasurer. Mrs. Jarvis also advised that upon the resignation of Steve Kuni as chairperson, that Joe McAllister would take his seat and that Bill Helsel would take the seat of Activities Director.

Council was in receipt of a letter from the Township of South-West Oxford regarding the Appeals to Cabinet from decisions of Joint Boards under the Consolidated Hearings Act requesting their support. Council noted the letter and it was filed accordingly.

Discussion took place regarding the Gravel Pit being used by Camp Dorset off of County Road #8. Dalton MacDonald, Reeve, advised that Steve Woolman, caretaker of the camp was going to post a sign indicating that no garbage should be dumped within this pit.

Joyce McKey updated council on the finances of the Dorset Community Centre Building fund. She was unable to indicate the money received through Pioneer Week, however, she advised that the information would be received in the near future.

NOTES

- The 1982 Financial Report consolidates the operations, assets and liabilities of the Township and its local boards as follows:
Cemetery Board, Library Board, Harcourt Community Centre Board, Dysart Community Centre Board and the Haliburton Highlands Pioneer Museum Board.
- The above data have been extracted from the audited 1982 Financial Report of the Township and its local boards as described in Note 1. Copies of the 1982 Financial Report are available at the Township offices to any resident who wishes to review or analyze the financial operations of the Township in greater detail.
